

NOTICE TO OUR PATIENTS COVERED BY DENTAL INSURANCE

Dental insurance does not provide coverage (or payment) for all dental services you receive. If you have dental insurance and receive services or procedures that are not covered benefits under your dental insurance plan or policy, the services or procedures might not be offered at a discounted rate.

If you are receiving services or procedures that your dental plan does not cover, please tell us if your plan is self-insured (or self-funded) by your employer or other group, or if the terms of your dental plan are collectively bargained.

Thank you for your assistance.
